How Mobs Enter the World

Three ways to summon the wild — naturally, by orb, or by spawner.

Natural Spawning

Mobs spawn on their own in matching biomes — pigs in plains, bears in pine forest, golems in caves. Cap of 5 mobs per chunk.

Mob Spawn Orbs

Added Dec 12, 2024. Throw one like a Minecraft spawn egg and the mob appears where it lands. Available in Creative, Plots & Worlds — for every mob except the Iron Golem.

THROW TO SUMMON

Mob Spawners

Added Apr 17, 2025. 1–3 hostile spawners generate in every Ruins / Underground Ruins. Break with a Moonstone Pickaxe to keep the spawner itself.

PLACE TO FARM

The Taming Table

Turn enemies and neutrals into allies and mounts.

Horse

Tame, then ride for a massive speed boost across the map.

APPLE OR WHEAT → SADDLE

Wolf

Loyal fighter that attacks mobs and players for you.

BONE

Wildcat

Combat companion whose hits inflict Weakness.

ANY MEAT

Spirit Beasts

Bear, Stag, Golem, Gorilla & Wolf — tamed the instant they're released. Equip a Spirit Saddle to ride.
